

# DRC450 Universal Remote Control

## DIGITAL MADE EASY

The new Motorola DRC450 is a full-featured, 4-in-1, wireless infra-red, universal remote control designed specifically for the Motorola DCT family of interactive digital terminals. Brought to you by Motorola, the powerhouse behind digital cable, this updated remote features an ergonomic design, easy-to-find buttons and proven reliability, making it a smart choice for you and your subscribers. In addition to optimized control over current Motorola Digital set-tops and backward compatibility with Motorola's earlier digital and advanced analog terminals, the new expanded code library gives customers control of even more peripheral components including most TVs, VCRs, DVD/CD players, Personal Video Recorders (PVRs), audio receivers and amplifiers. And, for quick and easy installation, the DRC450 comes elegantly boxed with a user guide and 2 (AA) alkaline batteries.

*The DRC450 features well-spaced, easy-to-identify buttons that are color coded and grouped by function to make it easy and simple to use.*

## CONSUMER-FRIENDLY DESIGN

On the outside, the Motorola DRC450 remote features well-spaced, easy-to-identify buttons that are color coded and grouped by function to make it easy and simple to use. On the inside, we have updated and expanded our already extensive library of codes to include codes for DVD/CD players, PVRs, audio receivers and amplifiers. All this functionality comes wrapped in a sleek, light-weight design that continue to make Motorola's universal remotes a favorite among subscribers.

The Motorola DRC450 remote control supports direct access channel tuning as well as popular digital cable applications such as on-screen menus, program guides, favorite channels, last channel recall, time-controlled programming and parental control. Ordering Pay-Per-View or Video on Demand programming is easy, therefore increasing your revenue opportunities and customer satisfaction. The remote control design reserves space for custom operator logos reinforcing brand recognition and loyalty.

## FEATURES

- The DRC450 4-device, universal remote control has been designed exclusively for the Motorola DCT family of interactive digital consumer terminals guaranteeing optimal performance with Motorola digital set-top boxes.
- Our updated and extended code library allows for control of most TVs, VCRs, DVD/CD Players, PVRs, audio receivers and amplifiers.
- Various commercially deployed Electronic Program Guides (EPGs) are supported as well as popular terminal features such as on-screen menus, favorite channels, last channel recall, program info, EPG help, time-controlled programming and parental controls.
- The Search feature allows the DCR450 to scan until it finds the appropriate code for the selected device. This is very useful for subscribers who have lost their DRC User Guide and will decrease calls to your customer service representatives.
- Mode light quickly indicates to which device the remote is set.
- Volume Lock allows subscribers to lock the volume control to specific device, such as an amplifier, a must have for home theater enthusiasts.
- Memory Retention ensures that codes are held in memory while changing batteries.
- Instant access to the EPG Parental Control feature with the LOCK button.
- One-touch MUSIC key allows quick and easy access to digital music channels.
- The Low Battery Indicator tells the customer when batteries need to be changed.
- The Blink Out feature gives the customer the ability to identify the code of a device that is programmed into the DRC.
- The DRC450 comes individually boxed with user guide and 2 alkaline batteries (AA) for safe shipping and easy and fast set up.
- One-year limited warranty.
